

Fanel - 07 May 1984

My name is Fanel and I was born in 1984. My mother is called Maria. I do not know who my father is. I have lived in institutions all my life. Social workers have tried many times to persuade my mother to take me in to the family but she has another husband and they both say they do not want anything to do with me. Each time when I was forced to return home the family threw me out.

I have severe health problems and I have nearly died several times. I have cirrhosis and a stomach ulcer. I have had so many operations. My spleen has been removed. This was because, on my last return to the family, my step father beat me up so severely that my spleen was ruined.

I am very happy at the house even I am on a very strict diet. I enjoy helping the staff with the work in the house and I love plants.
