

## Gabi - 16 December 1986

My name is Gabi. I was sent to an orphanage not long after I was born and I spent my life in different institutions. When my family was traced they didn't want me back because they are gypsies and they felt that after being away from them for so long my gypsy blood had been diluted. They also said that I would be dangerous in the house where they keep guns. In 2003 I came to the Amara house.

I am Autistic and I'm very good at building things with Lego and co-ordinating all the colours! I enjoy doing art and I'm learning to count too. I also love to tidy up; everything has to be in the correct place!
