

## Marius - 19 March 1982

My name is Marius. Not long after I was born my father abandoned our family and my mother put me up for adoption because she couldn't look after me properly. I have some serious health problems and so no one wanted to adopt me. I spent my whole life at the orphanage in Slobozia and in 2003 I came to live at Amara. I am Autistic and I don't say much but I am learning a few words.

I love to sing and I remember nearly any tune I hear. I spend lots of time playing on the swing in the garden.

Some of my favourite activities is travelling to the lake or going to the zoo.
