

Sandu - 18 April 1987

My name is Sandu. In 1995 a man found me on a train, I didn't know what my name was or where my parents were and so I was taken to an institution. My parents were never found and in 2003 I came to the Amara house. My favourite things are playing football and riding my bicycle.

My favourite team is Dinamo Bucharest and I get very upset when they lose a game. Still trying to learn how to count but I keep forgetting the number seven! I am very

helpful at the house and every morning I go to collect our milk from a neighbour.

I am also responsible for looking after our ducks and chickens
