

Vali - 31 January 1985

My name is Valentin and I was born in 1985. I was abandoned at birth and since then I have had no contact at all with my parents. I have spent my life in different institutions and in 2003 I came to the Amara house. I am Autistic and I like to spend a lot of time on my own, especially on the swing and I can be very stubborn and sometimes get very angry and become violent. When I'm feeling happy I like to paint and colour. At the moment I don't speak at all but I am trying to learn.
